

PRESS RELEASE – Ref UNI: 004

FEATURE TITLE: **UNIMAQ Opens New Asian Office**

RELEASE DATE: **Monday 02nd April 2012**

UNIMAQ has announced the opening of a new office in Bangkok, Thailand, which has been set-up to give their Asian based customers, far greater access to Unimaq's 'Can Decorating' technologies, product development and engineering facilities.

Whilst also speeding up local communications and service support, the new office facility will also dramatically improve on-site customer relationships and response times, particularly in respect of helping individual customer's develop their own and very often local can making, processing and market growth needs.

Through this new local presence in Asia and especially as a global leader in the 'Design, Development & Manufacture' of 2-piece can decorating equipment, Unimaq's imaginative design engineering, will now not only help accelerate its customer's own and very individual productivity and sales drives, but also their understanding, access and use of Unimaq's latest design technologies and global expertise in this field, whilst at the same time, enabling them to gain first-hand, knowledge of all Unimaq's new equipment developments, planned for market launch in 2012.

Unimaq also gratefully acknowledges, that achievement of this important milestone in the company's history, has only been made possible, thanks to the continued business growth and trust received from its Asian based customers. Establishing a permanent local presence in Asia and working side by side with its customers in the region, clearly demonstrates Unimaq's long term market commitments and focused engineering support to all its customers, in terms of their own business development and successes.
